Material:

ABS

Frequency:

UHF(860~960MHz)

Personalized printing:

Serial number/chip UID/LOGO/barcode/QR code etc.

Application: Inventory management, metal pallet management, truck/machine management etc

FPC Sticker

FPC, also known as Flexible Printed Circuit, is favored for its lightweight, thin thickness, free bending and folding, high temperature resistant etc.

Flexible circuits have evolved and helped provide durability and reliability for devices connection. Applications of flexible circuits are earphone, wristbands, calculators, cameras, printers etc.

Working frequency: 13.56MHz or 860-960MHz

Anti-metal: support adding anti-metal layer for working on metal widely use in electronic
