

# DC-DC Step-Down Power Supply Module XL4016E1 Adjustable Voltage Buck Board

## DC-DC Step-Down Power Supply Module XL4016E1 8A Adjustable Voltage Buck Regulator Board

### Description:

1. Please keep the input and output voltage difference above 2V.
2. Long running current is recommended within 5A. If the power is too large, please increase the fan or other ways to enhance the heat dissipation.
3. This module is a buck module, not a boost module.
4. This module has reverse connection protection
5. Product Size: 60 X 38 X 25mm/2.36 X 1.5 X 0.98"
6. Packing Weight: 41g
