

Technical Characteistics:

1. Working temperature: -60°C to $+200^{\circ}\text{C}$
2. Working current: $\varnothing 1.0 - 5\text{A}$
3. Working voltage: 400V (AC)
4. Contact resistance: $\leq 5\text{m}\Omega$
5. Insulation resistance: Normal: $\geq 1000\text{M}\Omega$
High humidity: $\geq 20\text{M}\Omega$
6. Shell mateial: Aluminum alloy
7. Insulation material: Bakelite
8. Surface treatment: Anodizing, 96 hours of salt spray tes
