

Technical Characteristics:

1. Working temperature: -60°C to +200°C
2. Working current: Ø1.5 - 10A
3. Working voltage: 400V (AC)
4. Contact resistance: $\leq 2.5\text{m}\Omega$
5. Insulation resistance: Normal: $\geq 1000\text{M}\Omega$
High humidity: $\geq 20\text{M}\Omega$
6. Shell material: Aluminum alloy
7. Insulation material: Bakelite
8. Surface treatment: Anodizing, 96 hours of salt spray tes
