

- Technical Characteristics:
1. Working temperature: -60°C to +200°C
 2. Working current: 01.5 - 10A
 3. Working voltage: 400V (AC)
 4. Contact resistance: $\leq 2.5\text{m}\Omega$
 5. Insulation resistance: Normal: $\geq 1000\text{M}\Omega$
High humidity: $\geq 20\text{M}\Omega$
 6. Shell material: Aluminum alloy
 7. Insulation material: Bakelite
 8. Surface treatment: Anodizing, 96 hours of salt spray tes
