

Technical Characteristics:

1. Working temperature: -60°C to +200°C
2. Working current: 0.25- 25A
3. Working voltage: 500V (AC)
4. Contact resistance: $\leq 1\text{m}\Omega$
5. Insulation resistance: Normal: $\geq 500\text{M}\Omega$
High humidity: $\geq 2\text{M}\Omega$
6. Shell material: Aluminum alloy
7. Insulation material: Bakelite
8. Surface treatment: Anodizing, 96 hours of salt spray tes
