

TFT 3.2 inch Mega Touch LCD Expansion Board Shield - IC partial pressure for arduino Mega 2560 R3

- 3.2 inch TFT LCD Shield, can be compatible with the Arduino
- Designed with section TFT shield, can be directly plugged into the Arduino board
- Sufficient Mega2560 IO, TFT01 LCD 16 can support the current mode
- TFT01 LCD supports 8-bit mode, can use SD card interface and touch screen interface at the same time
- Adopts IC voltage division, more stable TFT display performance
